Why do you want to serve as an ABoR director?

The only thing I love more than real estate is real estate agents. I take a special interest in representing the interest of the real estate community, protecting our careers and property rights, helping real estate agents grow personally and professionally and ensuring equitable homeownership for all.

The real estate industry has provided with me an enjoyable and impactful real estate career. I want to serve as an ABOR director to use my skills and past experience to ensure that all ABOR members have

the opportunity to live big lives through the power of entrepreneurship and are provided with the tools, training and resource they need to properly serve our communities and provide homeownership for all.

What do you do in your personal time? Do you have any hobbies?

In my personal time I like to write. I often freelance write for continuing education companies, real estate media and personal and professional development blogs. I also enjoy group fitness classes, riding my bike and walking, especially by the water.
